Company Introduction

Wenzhou Feihua Printing Machinery Co., Ltd. has more than 20 years of experience in post-press equipment manufacturing, specializing in the production of laminating machines, comprehensive coating machines and pre-coating films. A professional company integrating scientific research, design, manufacturing, and service, with the business tenet of "professionalism, focus, innovation, and service", scientific management, and strive to meet customer requirements to the greatest extent

Automatic laminating machine (With embossing) YFML-540Y

一、 Scope of adaptation:

YFML series is a practical semi-automatic laminating machine launched by our company, which is suitable for posters, books, brochures, posters, color boxes, color box packaging, bags and other laminating process

二： Technical parameters

Mode	YFML -540Y
Max paper Width	540mm
Paper thickness	105-500g/m ²
Max laminating speed	0-25m/min
Gross power	9KW
Total weight	1000kg
Overall Dimensions	3300x1200x1400mm

三： Equipment description and performance characteristics:

1. Use a large-diameter heating roller with a diameter of 200mm for coating to ensure the coating effect.
2. Using electromagnetic heating method, the temperature rises in 90 seconds and the temperature control is accurate.
3. Use automatic hydraulic pressure to ensure stable and reliable laminating pressure. Also makes operation easier.
4. Why use pneumatic pop-up slitting? Just input the paper length and it will be automatically slit.
5. Equipped with an automatic edge setting front guide device, combined paper feeding is simplified, and unfamiliar workers can also feed paper.

6.The main electrical components are imported and produced in Taiwan to ensure stable operation of the machine.

7.It is equipped with a tissue paper anti-curling device to ensure that the finished product does not curl when the tissue paper is coated.

8.The film unwinding uses an air-expanding shaft, which is easy to load and unload. The film unwinding uses pneumatic brakes, and the unwinding tension is stable.

9. It is equipped with a back-channel punching device to prevent the paper from breaking after punching holes in the film and before slitting, making the operation more stable.

10.You can choose silk texture, frosted texture or customized texture, and cold press molding to make the effect more three-dimensional!

四： Main configuration list

Accessory Name	Brand/Origin	Note
Main motor reducer	China Taiwan	
Automatic hydraulic station	China Shanghai	
Frequency converter	China Shenzhen	
Button	Germany	
Temperature Controller	Japan	
PLC	China Shenzhen	
Encoder	Japan	
touchscreen	China Shenzhen	
Servo reducer	China Zhejiang	
Relay	Japan	
Contactors	Germany	
Bearing	Japan	
Glue roll	China Taizhou	

五: **After-sales service**

1. After the machine passes the acceptance inspection, the customer's operators will be provided with skills training or on-site operation training. The training time is 1-2 days.
2. From the date of acceptance of this equipment, any major quality problems will be unconditionally returned within seven days, and any quality problems will be guaranteed to be repaired free of charge within one year, except for wearing parts and human factors. The cost of replacing spare parts due to failure or damage caused by irresistible natural phenomena shall be borne by the customer.
3. After receiving the customer's repair notification, we will conduct remote analysis and solve the problem and provide the customer with a clear solution within 1 working day. Both parties can negotiate the time for after-sales service personnel to be in place, but our service personnel should arrive at the customer's designated service location within 48 hours.
4. After the warranty period, our company will still provide customers with spare parts at preferential prices. And provide customers with paid repair and maintenance services according to customer needs. The company has sales branches or offices in 28 provinces and cities across the country and in various countries around the world, which will greatly satisfy the sales and service capabilities of customers everywhere.
